PROFESSIONAL EXPERIENCE

Senior Software Developer

16 Jan 2026 — Present

Thermowave Engineers Private Limited · Noida, Uttar Pradesh

- Lead and manage the software development team, allocate responsibilities, remove delivery blockers, and support consistent execution.
- Own project planning and end-to-end delivery, coordinating priorities to complete work accurately and on schedule.
- Earned two promotions for dependable ownership, successful project completion, and effective team management.

PraharX · Noida, Uttar Pradesh

- Led a cross-functional development team working across MERN, WordPress, and Android products.
- Introduced CI/CD and automation practices to improve release speed and reliability.
- Defined coding, documentation, and cross-team delivery standards for scalable project execution.

WordPress Developer

Jun 2024 — Aug 2024

Orane Marketing · New Delhi

- Delivered responsive WordPress websites using custom themes, plugins, and business-focused content structures.
- Collaborated with stakeholders and optimized product listings, content accuracy, and publishing workflows.

Front End Developer

Aug 2023 — May 2024

WeBeeSocial Pvt. Ltd. · New Delhi

- Built and optimized responsive interfaces across mobile, tablet, and desktop devices.
- Improved UI performance, SEO and Lighthouse outcomes while shipping reusable frontend components.

WordPress Developer

Jan 2022 — Aug 2023

WeBeeSocial Pvt. Ltd. · New Delhi

- Built and maintained client websites, ecommerce experiences, and conversion-focused landing pages.
- Integrated APIs, analytics, and performance improvements across production websites.

SELECTED FULL STACK PROJECTS

Lotus Rice Mill Business Portal

Secure full-stack portal with login and registration workflows for vendors, suppliers, employees, and contractors.

PHE India CRM

Cloud CRM for customers, orders, approvals, dashboards, communication workflows, templates, and tags.

CRM, ERP & SaaS Dashboards

Role-based business applications featuring analytics, workflow automation, reporting, and API integrations.

WordPress & Shopify Portfolio

Delivered and maintained business, healthcare, ecommerce, industrial, and personal-brand websites across multiple sectors.

AI-ASSISTED ENGINEERING WORKFLOW

Use AI tools to accelerate research, scaffolding, debugging, refactoring, test planning, documentation, and code review. All architecture decisions, generated code, security-sensitive changes, and production outputs are reviewed and validated before delivery.
